How To Be a Good Wife Emma Chapman 2013-10-15 *How To Be a Good Wife* by Emma Chapman is a haunting literary debut about a woman who begins having visions that make her question everything she knows Marta and Hector have been married for a long time. Through the good and bad; through raising a son and sending him off to life after university. So long, in fact, that Marta finds it difficult to remember her life before Hector. He has always taken care of her, and she has always done everything she can to be a good wife--as advised by a dog-eared manual given to her by Hector's aloof mother on their wedding day. But now, something is changing. Small things seem off. A flash of movement in the corner of her eye, elapsed moments that she can't recall. Visions of a blonde girl in the darkness that only Marta can see. Perhaps she is starting to remember--or perhaps her mind is playing tricks on her. As Marta's visions persist and her reality grows more disjointed, it's unclear if the danger lies in the world around her, or in Marta herself. The girl is growing more real every day, and she wants something.

Dr. Mutter's Marvels Cristin O'Keefe Aptowicz 2015-09-08 A mesmerizing biography of the brilliant and eccentric medical innovator who revolutionized American surgery and founded the country's most famous museum of medical oddities. Imagine undergoing an operation without anesthesia, performed by a surgeon who refuses to sterilize his tools—or even wash his hands. This was the world of medicine when Thomas Dent Mütter began his trailblazing career as a plastic surgeon in Philadelphia during the mid-nineteenth century. Although he died at just forty-eight, Mütter was an audacious medical innovator who pioneered the use of ether as anesthesia, the sterilization of surgical tools, and a compassion-based vision for helping the severely deformed, which clashed spectacularly with the sentiments of his time. Brilliant, outspoken, and brazenly handsome, Mütter was flamboyant in every aspect of his life. He wore pink silk suits to perform surgery, added an umlaut to his last name just because he could, and amassed an immense collection of medical oddities that would later form the basis of Philadelphia's renowned Mütter Museum. Award-winning writer Cristin O'Keefe Aptowicz vividly chronicles how Mütter's efforts helped establish Philadelphia as a global mecca for medical innovation—despite intense resistance from his numerous rivals. (Foremost among them: Charles D. Meigs, an influential obstetrician who loathed Mütter's "overly modern" medical opinions.) In the narrative spirit of *The Devil in the White City*, *Dr. Mutter's Marvels* interweaves an eye-opening portrait of nineteenth-century medicine with the riveting biography of a man once described as the "[P. T.] Barnum of the surgery room."

Collared David Rosenfelt 2017-07-18 Lawyer Andy Carpenter's true passion is the Tara Foundation, the dog rescue organization he runs with his friend Willie Miller. All kinds of dogs make their way to the foundation, and it isn't that surprising to find a dog abandoned at the shelter one morning, though it was accompanied by a mysterious anonymous note. But they are quite surprised when they scan the dog's embedded chip, and discover that they know this dog. He is the "DNA dog." Two and a half years ago, Jill Hickman was a single mother of an adopted baby. Her baby and dog were kidnapped in broad daylight in Eastside Park, and they haven't been seen since. A tip came in that ID'd a former boyfriend of Hickman's, Keith Wachtel, as the kidnapper. A search of his house showed no sign of the child but did uncover more incriminating evidence, and the clincher that generated Wachtel's arrest was some dog hair, notable since Wachtel did not have a dog. DNA tests showed conclusively that the hair belonged to Hickman's dog. Wachtel was convicted of kidnapping, but the dog and baby were never found. Now, with the reappearance of the dog, the case is brought back to light, and the search for the child renewed. Goaded by his wife's desire to help a friend and fellow mother and Andy's desire to make sure the real kidnapper is in jail, Andy and his team enter the case. But what they start to uncover is far more complicated and dangerous than they ever expected, in David Rosenfelt's *Collared*.

The murder victim is Mayor Alex Oliva, who had an infamous relationship with the newspaper. Last year a young reporter published an expose, and Oliva had him fired for libel. Now, the young reporter – and prime suspect – is in need of a lawyer. Andy agrees to take the case, though it's not looking good this holiday season. The evidence is piling up faster than the snow in *Best in Snow*, the next Christmas mystery in the bestselling Andy Carpenter series from David Rosenfelt.

The Goliath Stone Larry Niven 2013-06-25 The Goliath Stone is a visionary tale from Larry Niven and Matthew Joseph Harrington. Doctor Toby Glycer has effected miracle cures with the use of nanotechnology. But Glycer's controversial nanites are more than just the latest technological advance, they are a new form of life—and they have more uses than just medical. Glycer's nanites also have the potential to make everyone on Earth rich from the wealth of asteroids. Twenty-five years ago, the Briareus mission took nanomachinery out to divert an Earth-crossing asteroid and bring it back to be mined, only to drop out of contact as soon as it reached its target. The project was shut down and the technology was forcibly suppressed. Now, a much, much larger asteroid is on a collision course with Earth—and the Briareus nanites may be responsible. While the government scrambles to find a solution, Glycer knows that their only hope of avoiding Armageddon lies in the nanites themselves. On the run, Glycer must track down his old partner, William Connors, and find a way to make contact with their wayward children. As every parent learns, when you produce a new thinking being, the plans it makes are not necessarily your plans. But with a two-hundred-gigaton asteroid that rivals the rock that felled the dinosaurs hurtling toward Earth, Glycer and Connors don't have time to argue. Will Glycer's nanites be Earth's salvation or destruction? At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Seldom Disappointed Tony Hillerman 2013-05-21 When Tony Hillerman looks back at seventy-six years spent getting from hardtimes farm boy to bestselling author, he sees lots of evidence that Providence was poking him along. For example, when an absentminded Army clerk left him off the hospital ship taking the wounded home from France, the mishap put him on a collision course with a curing ceremony held for two Navajo Marines, thereby providing the grist for a writing career that now sees his books published in sixteen languages around the world and often on bestseller lists. Or, for example, when his agent told him his first novel was so bad that it would hurt both of their reputations, he nonetheless sent it to an editor, and that editor happened to like the Navajo stuff. In this wry and whimsical memoir, Hillerman offers frequent backward glances at where he found ideas for plots of his books and the characters that inhabit them. He takes us with him to death row, where he interviews a man about to die in the gas chamber and details how this murderer became Colton Wolf in one of his novels. He relates how flushing a solitary heron from a sandbar caused him to convert Joe Leaphorn from husband to widower, and how his self-confessed bias against the social elite solved the key plot problem in *A Thief of Time*. No child abuse stories here: The worst Hillerman can recall is being sent off to first grade (in a boarding school for Indian girls) clad in cute blue coveralls instead of the manly overalls his farm-boy peers all wore. Instead we get a good-natured trip through hard times in college; an infantry career in which he "rose twice to Private First Class" and also won a Silver Star, Bronze Star, and Purple Heart; and, afterward, work as a truck driver, chain dragger, journalist, professor, and "doer of undignified deeds" for two university presidents. All this is colored by a love affair (now in its fifty-fourth year) with Marie, which involved raising six children, most of them adopted. Using the gifts of a talented novelist and reporter, seventy-six-year-old Tony Hillerman draws a brilliant portrait not just of his life but of the world around him.

Holy Chow David Rosenfelt 2022-07-05 In *Holy Chow*, the next mystery from bestselling author David Rosenfelt, the beloved characters—both human and canine—of this fan favorite series are back on the case with the author's trademark wit and humor. Retired lawyer Andy Carpenter's calling has always been running the Tara Foundation. The dog rescue organization places hundreds of dogs in new homes every year. It's added up to so many dogs and new owners that Andy can't even do the math. But there's one dog—and one owner—Andy will always remember. About a year ago, Rachel Morehouse came to the foundation looking for a companion. In her sixties and recently widowed, Rachel wanted a senior dog that also needed someone. Andy took a liking to her, Rachel took a liking to Lion, an older Chow Chow, and the rest is history. That is, until Rachel calls Andy begging for a favor: If Rachel dies, will Andy take care of Lion if her stepson cannot? Andy agrees, no questions asked, and promptly forgets about it... until he receives a call from Rachel's estate to attend her will reading. Which is where he meets Rachel's stepson, Tony, who is promptly arrested for his stepmother's murder. And he wants Andy to prove his innocence. Andy has continued to learn more about the woman he so greatly admired and the businesses she ran, and holy chow, was this woman impressive. The person who killed her deserves to be held accountable, and if Tony is to be believed, they're still out there. And that possibility is too much for Andy to remain on the sidelines.

Last Night I Sang to the Monster Benjamin Alire Sáenz 2009-09-01 "Sáenz' poetic narrative will captivate readers from the first sentence to the last paragraph of this beautifully written novel. . . . It is also a celebration of life and a song of hope in celebration of family and friendship, one that will resonate loud and long with teens."—Kirkus Reviews "...There is never a question of either Sáenz's own extraordinary capacity for caring and compassion or the authenticity of the experiences he records in this heartfelt account of healing and hope."—Booklist "Offering insight into [an adolescent's] addiction, dysfunction and mental illness, particularly in the wake of traumatic events, Sáenz's artful rendition of the healing process will not soon be forgotten."—Publishers Weekly "Sáenz weaves together [18-year-old] Zach's past, present, and changing disposition toward his future with stylistic grace and emotional insight. This is a powerful and edifying look into both a tortured psyche and the methods by which it can be healed."—School Library Journal Zach is eighteen. He is bright and articulate. He's also an alcoholic and in rehab instead of high school, but he doesn't remember how he got there. He's not sure he wants to remember. Something bad must have happened. Something really, really bad. Remembering sucks and being alive—well, what's up with that? I have it in my head that when we're born, God writes things down on our hearts. See, on some people's hearts he writes Happy and on some people's hearts he writes Sad and on some people's hearts he writes Crazy on some people's hearts he writes Genius and on some people's hearts he writes Angry and on some people's hearts he writes Winner and on some people's hearts he writes Loser. It's all like a game to him. Him. God. And it's all pretty much random. He takes out his pen and starts writing on our blank hearts. When it came to my turn, he wrote. I don't like God very much. Apparently he doesn't like me very much either. Afghanistan, 1970s. Born to an American mother and a late Afghan war hero, Daniel Sajadi has spent his life navigating a complex identity. After years in Los Angeles, he is returning home to Kabul at the helm of a US foreign aid agency dedicated to eradicating the poppy fields that feed the world's opiate addiction. But on the drive out of Kabul for an anniversary trip with his wife, Daniel accidentally hits and kills a young Kochi girl named Telaya. He is let off with a nominal fine, in part because nomad tribes are ignored in the eyes of the law, but also because a mysterious witness named Taj Maleki intercedes on his behalf. Wracked with guilt and visions of Telaya, Daniel begins to unravel, running from his crumbling marriage and escalating threats from Taj, who turns out to be a powerful opium khan willing to go to extremes to save his poppies. This groundbreaking literary thriller reveals the invisible lines between criminal enterprises and political regimes—and one man's search for meaning at the heart of a violent revolution.
