Conference 2011 Information communications technologies (ICTs) are generally viewed as the new vehicle to redress developmental problems. The book assesses the value of such claims by analyzing the structure and workings of the global political economy (GPE) and its impact on, and prospects for developing countries in the current techno-economic context. The book uses a case study of the Caribbean to illustrate the challenges and opportunities faced by small-island developing states (SIDS) in the new techno-economic paradigm. The question must be asked, can small island developing states such as those of the Caribbean leverage modern ICTs for growth and development against the backdrop of a yawning global digital divide? Hence, the book addresses the central problem of the digital divide and whether emerging ICTs offer any real economic opportunities for the Caribbean

region.

Knowledge Management: Awad Knowledge Management is a subset of content taught in the Decision Support Systems course. Knowledge Management is about knowledge and how to capture it, transfer it, share it, and how to manage it. The authors take students through a process-oriented examination of the topic, striking a balance between the behavioral and technical aspects of knowledge management and use it.

Commonwealth Caribbean Business

Law Rajendra Ramlogan 2012-05-23

Caribbean Business Law breaks away from the traditional English approach of treating business law primarily as the law of contract and agency. It provides a broad overview of the foundation of various legal systems and goes on to examine the various areas of legal liability that may impact on business activities. These areas include tort

law, criminal law, internet law and payment in business transactions. Specifically, the book targets the development of business law in several Commonwealth jurisdictions, including Canada and Australia, but with special focus on legal developments in Commonwealth Caribbean countries. The approach of the book is to present excerpts from judgments, so as to enable students to understand legal principles as espoused by the judiciary without the filtering bias of authors. This new title is essential reading for students taking LLB and Business Degree courses in the Caribbean and other Commonwealth jurisdictions.

The China Business Model Elisabeth Paulet 2017-01-17 The China Business Model: Originality and Limits emphasizes transformation of the Chinese Business Model over the last decades. The impact of the financial crisis on China helps the reader understand its evolution towards capitalism.

Topics covered include CSR, leadership, and management in China, how do these organizations impact the performance of companies, the financing policy of Chinese firms and its evolution till the slowdown, finance and business in China, and how could the banking sector and/or the financial markets help the development of Chinese companies? Helps the reader understand the impact of the financial crisis on China and its evolution towards capitalism Contains coverage of CSR, leadership, and management in China Answers the question "how can financial markets help the development of Chinese companies?" Money Laundering United States. Congress. House. Committee on Banking and Financial Services 2000 *Technology Adoption in the Caribbean Tourism Industry* Andrew Spencer 2020-10-31 This book investigates the adoption of Information and Communication

Technologies (ICTs) in Caribbean travel firms, particularly for sales and marketing purposes. By examining the decision-making process in tourism companies deciding whether to become more dependent on digital capabilities and artificial intelligence, this text seeks to understand the role of strategy and resources in technology adoption. Further, the author assesses the role of factors both external (such as culture) and internal (such as leadership) in this strategic process. Economies in the Caribbean are reliant on tourism to bring prosperity to the region, and with the onset of the COVID-19 pandemic, the industry is being forced to transform the way it operates. With implications for those studying organizational behavior as well as strategic and tourism management, this study analyzes rapid change in this pivotal industry.

Miz Scarlet and the Perplexed

Passenger Sara M. Barton 2019-06-11
Book five in the popular cozy mystery series laced with humor and romance... "Very entertaining read. It had me chuckling so much I had to pause the reading. She has a very witty humor." When innkeeper Scarlet Wilson is asked to accompany her wheelchair-bound mother on a five-night cruise to Bermuda, she expects to have a

trip to remember. Boy, will she remember this one! Accompanied by Laurel Googins Wilson's new beau and Scarlet's old high school flame, the women set sail for paradise. While Scarlet loses herself in a good book on the balcony of their stateroom, poor Laurel witnesses the deadly plunge of a fellow passenger into the Atlantic Ocean. It's the start of a nightmare that may never end. Who would want to kill George Delaney, the respectable funeral director from Caulkins Cove, Maine, on a cruise to Bermuda? Scarlet doesn't believe the culprit is the grieving widow. While Kenny, an experienced investigator, joins forces with old school chum Marley Hornsby, now the security chief for the cruise line, and the cruise ship's security team to find the killer hiding in their midst, the amateur sleuth known as Miz Scarlet can't resist diving into this mystery. But this isn't a killer who wants to be found. He's

dangerous...he's desperate...and he's plotting to kill again! Suddenly Miz Scarlet finds herself facing the wrath of a devious, dangerous stranger. Can she stay alive long enough to figure out what the killer's end game is?

ASIA-PACIFIC SUSTAINABLE DEVELOPMENT JOURNAL 2021, ISSUE NO. 2 ECONOMIC AND SOCIAL COMMISSION FOR ASIA AND THE PA. 2022

Wait No More Benjamin Roseth
2018-06-06 This book is about the smallest unit of public policy: the government transaction. Government transactions—requesting a birth certificate, registering a property, or opening a business, for example—are the way that citizens and companies connect with the government. Efficient transactions enhance the business climate, citizen perception of government, and access to crucial public programs and services. In Latin America and

the Caribbean, however, government transactions are often headaches. Public institutions rarely coordinate with each other, still rely on paper, and are more concerned about fulfilling bureaucratic requirements than meeting citizens' needs. Wait No More empirically confirms a reality known anecdotally but previously unquantified and offers a path to escape the bureaucratic maze.

Measuring and Implementing Altmetrics in Library and Information Science Research Baskaran, C. 2020-01-17 Researchers are becoming increasingly concerned with tracking the impact and reach that their research has on the academic community. Through the implementation of altmetrics, they can now better measure the value that their research has through the analysis of citing behavior and citation-based research evaluation. Measuring and Implementing

Altmetrics in Library and Information Science Research is a critical research book that focuses on how altmetrics can help researchers to uncover evidence of societal engagement, influence, and broader impacts that demonstrate the value of their research. It builds a more complete picture of the visibility and profile of individual researchers and observes real-time social media updates that provide insight into how faculty's research is being shared from the moment it is published. Featuring a range of topics such as citations, big data, and social media, this book is essential for researchers, educators, librarians, professionals, academicians, administrators, and students.

Straying from the Flock Alexander Elder
2010-12-08 An illuminating road trip through the history, life, and attractions of one of the most beautiful countries in the southern hemisphere The beauty and grandeur of New Zealand has captured the

imagination of movie-goers over the past couple of years, and the country is a dream destination for many around the world. *Straying from the Flock* is an intimate and personal account of one passionate traveler's visit to this incredible country, its mountains and beaches, fjords, rainforests, vineyards, and hidden eateries. Each of the fifty chapters describes one day in his travels-fishing, flying, cattle herding, befriending locals at every turn. Filled with colorful stories and memorable personalities, the book not only describes the trip of a lifetime, but captures a life-altering experience for its writer. From mountains and rainforests to cities and beaches, *Straying from the Flock* is both a moving memoir and personal travel guide to this amazing country.

Race Rights Reparations Fernne Brennan
2017-07-14 This book considers institutional racism as a problem that exists within

modern societies. Its roots lie with the transatlantic slave trade and slavery and the solution involves ridding society of the problem. It is argued here that, first, there needs to be an acceptance of its existence, then developing the tools needed to deal with it and, finally, to implement those tools so that institutional racism can be permanently removed from society. The book has four themes: the first considers the nature of institutional racism, the second theme looks at instances of institutional racism through matters such as deaths in custody and skin lightening, the third considers the concept of reparations and the final area looks at the development of social movements as a way of pushing institutional racism up the political agenda. The development of a social movement is part of a social discourse which would, for example, push mentoring as a form of reparations. There is a need for more research on the

manifestations of institutional racism and this book is part of that discourse. It is argued that the legacy of the slave trade and slavery is continuing and contemporary through the presence of institutional racism in society. This problem has not been addressed through legislation and policies devised to combat racial discrimination. Institutional racism needs to be understood as being located in the processes and procedures of societal institutions. *Internet and Society in Latin America and the Caribbean* International Development Research Centre (Canada) 2004 This book presents pioneering research that is designed to show, from a qualitative and ethnographic perspective, how new information and communication technologies, as applied to the school system and to local governance initiatives, merely reproduce traditional pedagogical approaches and the dominant forms by

which power is exercised at the local level. The studies thus constitute points of departure for further thinking about the need to promote an Internet culture based on the social application of a OC right to communication and cultureOCO and an OC Internet right, OCO that will permit the establishment of true citizen participation and free access to knowledge, with due regard to personal and individual rights such as those of privacy and intimacy."

Handbook of Meta-analysis in Ecology and Evolution Julia Koricheva 2013-04-21

Meta-analysis is a powerful statistical methodology for synthesizing research evidence across independent studies. This is the first comprehensive handbook of meta-analysis written specifically for ecologists and evolutionary biologists, and it provides an invaluable introduction for beginners as well as an up-to-date guide for experienced meta-analysts. The chapters, written by

renowned experts, walk readers through every step of meta-analysis, from problem formulation to the presentation of the results. The handbook identifies both the advantages of using meta-analysis for research synthesis and the potential pitfalls and limitations of meta-analysis (including when it should not be used). Different approaches to carrying out a meta-analysis are described, and include moment and least-square, maximum likelihood, and Bayesian approaches, all illustrated using worked examples based on real biological datasets. This one-of-a-kind resource is uniquely tailored to the biological sciences, and will provide an invaluable text for practitioners from graduate students and senior scientists to policymakers in conservation and environmental management. Walks you through every step of carrying out a meta-analysis in ecology and evolutionary biology, from problem

formulation to result presentation Brings together experts from a broad range of fields Shows how to avoid, minimize, or resolve pitfalls such as missing data, publication bias, varying data quality, nonindependence of observations, and phylogenetic dependencies among species Helps you choose the right software Draws on numerous examples based on real biological datasets

Variation in the Caribbean Lars Hinrichs 2011-01-26 The study of linguistic variation in the Caribbean has been central to the emergence of Pidgin and Creole Linguistics as an academic field. It has yielded

influential theory, such as the (post-)creole continuum or the 'Acts of Identity' models, that has shaped sociolinguistics far beyond creole settings. This volume collects current work in the field and focuses on methodological and theoretical innovations that continue, expand, and update the dialog between Caribbean variation studies and general sociolinguistics.

The SAGE Handbook of Intellectual Property

Matthew David 2014-11-18 This Handbook brings together scholars from around the world in addressing the global significance of, controversies over and alternatives to intellectual property (IP) today. It brings together over fifty of the leading authors in this field across the spectrum of academic disciplines, from law, economics, geography, sociology, politics and anthropology. This volume addresses the full spectrum of IP issues including copyright, patent, trademarks and trade

secrets, as well as parallel rights and novel applications. In addition to addressing the role of IP in an increasingly information based and globalized economy and culture, it also challenges the utility and viability of IP today and addresses a range of alternative futures.

The Politics of the Internet in Third World Development

Bert Hoffmann
2004-10-01 This book examines the political and developmental implications of the new information and communication technologies (NICT) in the Third World. Whereas the concept of the "digital divide" tends to focus on technological and quantitative indicators, this work stresses the crucial role played by the political regime type, the pursued development model and the specific configuration of

actors and decision-making dynamics. Two starkly contrasting Third World countries, state-socialist Cuba and the Latin America's "show-case democracy" Costa Rica, were chosen for two in-depth empirical country studies.

Research Beyond Borders Lise-Hélène Smith
2011-12-28 This collection draws insights from an interdisciplinary group of scholars specializing in diverse methods used in the social sciences and humanities to reflect on the empirical, methodological, and practical implications of conducting research beyond one's national borders. This book seeks to help researchers consider the need for transnational multidisciplinary practices that remain aware of the inequalities that continually inform current or dominant research practices.

Native on the Net Kyra Landzelius
2004-11-01 Exploring the influence of the Internet on the lives of indigenous and diasporic peoples, Kyra Landzelius leads a team of expert anthropologists and ethnographers who go on-site and on-line to explore how a diverse range of indigenous and transnational diasporic communities actually use the Internet. From the Taino Indians of the Caribbean, the U'wa of the Amazon rainforest, and the Tunomans and Assyrians of Iraq, to the Tingas and Zapatistas, Native on the Net is a lively and intriguing exploration of how new technologies have enabled these previously

isolated peoples to reach new levels of communication and community: creating new communities online, confronting global corporations, or even challenging their own native traditions. Featuring case studies ranging from the Arctic to the Australian outback, this book addresses important recurrent themes, such as the relationship between identity and place, community, traditional cultures and the nature of the 'indigenous'. Native on the Net is a unique contribution to our knowledge of the impact of new global communication technologies on those who have traditionally been geographically, politically and economically marginalised.
