Crossing the Mangrove Maryse Conde 2011-03-02 In this beautifully crafted, Rashomon-like novel, Maryse Conde has written a gripping story imbued with all the nuances and traditions of Caribbean culture. Francis Sancher--a handsome outsider, loved by some and reviled by others--is found dead, face down in the mud on a path outside Riviere au Sel, a small village in Guadeloupe. None of the villagers are particularly surprised, since Sancher, a secretive and melancholy man, had often predicted an unnatural death for himself. As the villagers come to pay their respects they each--either in a speech to the mourners, or in an internal monologue--reveal another piece of the mystery behind Sancher's life and death. Like pieces of an elaborate puzzle, their memories interlock to create a rich and intriguing portrait of a man and a community. In the lush and vivid prose for which she has become famous, Conde has constructed a Guadeloupean wake for Francis Sancher. Retaining the full color and vibrance of Conde's homeland, *Crossing the Mangrove* pays homage to Guadeloupe in both subject and structure.

The Knights Templar Collection brings together three engrossing novels in the widely acclaimed and much-loved Knights Templar series by Michael Jecks. Perfect for fans of C.J. Sansom and Bernard Cornwell. The Mad Monk of Gidleigh (Book 14): As the winter of 1323 descends on Dartmoor, who could blame the young priest, Father Mark, for seeking affection from the miller's daughter, Mary? But when Mary and

her unborn child are found dead, Mark is the obvious suspect. Called to investigate, Sir Baldwin de Furnhill and his friend Bailiff Simon Puttock soon begin to have their doubts. And by the time their search is over, life will never be quite the same again. *The Templar's Penance* (Book 15): It is the summer of 1323, and Sir Baldwin de Furnhill and Bailiff Simon Puttock have been granted leave to go on pilgrimage. When a beautiful girl is found murdered on a hillside en route to Santiago de Compostela, the friends are among the first on the scene. As Baldwin and Simon lend their skills to the inquiry, the unexpected appearance of a face from Baldwin's past could threaten the investigation, as well as the future of Baldwin himself... *The Outlaws of Ennor* (Book 16): On return from pilgrimage, Sir Baldwin de Furnhill and Bailiff Simon Puttock's ship is attacked by pirates, and Simon sees Baldwin washed overboard. On the island of Ennor, Simon must investigate the murder of the island's hated tax collector while, unbeknownst to his friend, Baldwin begins to unpick the same murder on the other side of the island. Can the pair uncover the truth in time to prevent certain massacre? What readers are saying about *The Knights Templar* mysteries: 'Michael Jecks is one of the best medieval writers of our times. His two main characters come alive in the imagination when you're reading them' 'The characters are richly drawn and weave in and out of the events of the early 14th century, with Michael Jecks showing great knowledge of the times' 'Good introduction to the series'

The Radiant Shock of Death Richard Hughes 1995 This book is an interdisciplinary study of death in relation to epilepsy and the Dostoevsky aura. Beginning with Frederic Myers' psychology of death, it develops Leopold Szondi's theories of the familial unconscious, paroxysmal pattern, and the bridge as symbol of the transcendent self. Specific attention is devoted to death-bed visions, bereavement dreams, and near-death experiences, as well as the symbolism of cancer and AIDS deaths. A theology of death is constructed from the biblical imagery of joy and the concept of death as a nonrational shock event.

How to Do Things with Dead People Alice Dailey 2022-06-15 How to Do Things with Dead People studies human contrivances for representing and relating to the dead. Alice Dailey takes as her principal objects of inquiry Shakespeare's English history plays, describing them as reproductive mechanisms by which living replicas of dead historical figures are regenerated in the present and re-killed. Considering the plays in these terms exposes their affinity with a transhistorical array of technologies for producing, reproducing, and interacting with dead things—technologies such as literary doppelgängers, photography, ventriloquist puppetry, X-ray imaging, glitch art, capital punishment machines, and cloning. By situating Shakespeare's historical drama in this intermedial conversation, Dailey challenges conventional assumptions about what constitutes the context of a work of art and contests foundational models of linear temporality that inform long-standing conceptions of historical periodization and teleological order. Working from an eclectic body of theories, pictures, and machines that transcend time and media, Dailey composes a searching exploration of how the living use the dead to think back and look forward, to rule, to love, to wish and create.

Death of the Body Orenda Press 2013-12 I grew up in a world of magic. By the time I was ten I understood nature, talked to the trees, and listened to the wind. When the kingdom of men conquered my town, I was murdered by one of my own—the betrayer

of my kind. But I didn't stay dead. I woke to find myself in a strange new world called Los Angeles. The only keys to the life I remembered were my father's ring, my unique abilities, and the onslaught of demons that seemed hell-bent on finding me. Now I must learn who I really am, protect my friends, get the girl, and find my way back to my beloved hometown of Orenda.

Pre-Incident Indicators of Terrorist Incidents Brent L. Smith 2011-01 This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.

Second Nature Crina Archer 2013-08 This volume examines the nature/politics relationship anew in the wake of recent critiques of the category of "nature." Its essays draw on contemporary and canonical thinkers to reflect on "second nature" as a site or paradigm of political contest and intervene into debates about environmentalism, human rights, and more.

SIDS Sudden Infant and Early Childhood Death Roger W. Byard 2018-04-10 (This is an abridged edition available only on Amazon websites.) This volume covers aspects of sudden infant and early childhood death, ranging from issues with parental grief, to the most recent theories of brainstem neurotransmitters. It also deals with the changes that have occurred over time with the definitions of SIDS (sudden infant death syndrome), SUDI (sudden unexpected death in infancy) and SUDIC (sudden unexpected death in childhood). The text will be indispensable for SIDS researchers, SIDS organisations, paediatric pathologists, forensic pathologists, paediatricians and families, in addition to residents in training programs that involve paediatrics. It will also be of use to other physicians, lawyers and law enforcement officials who deal with these cases, and should be a useful addition to all medical examiner/forensic, paediatric and pathology departments, hospital and university libraries on a global scale. Given the marked changes that have occurred in the epidemiology and understanding of SIDS and sudden death in the very young over the past decade, a text such as this is very timely and is also urgently needed.

Crossing the Boundaries Rick Strelan 2019-02-28 Mark, the shortest of the four gospels, presents Jesus as the Son of God who crosses the religious and social boundaries of his time in order to extend God's rule to include the outsiders and those who are unclean. It continues to challenge readers to follow Christ across the boundaries that separate people. This commentary, like others in the Chi Rho series, uses language that is simple and clear, avoiding technical terms. It gives an explanation of the text that is sound and reliable, easy to understand without being superficial.

The Distressed Body Drew Leder 2016-10-17 Returning to some of the issues in his now classic book *The Absent Body* published by this Press in 1990, philosopher and

physician Drew Leder turns his attention in his new book to distressed bodies the experience of illness and pain, and a variety of medical responses thereto; the experience of being imprisoned in our age of mass incarceration; and also the mistreatment of animal bodies, as in modern factory farms. Yet this book is not just about suffering, but the healing of suffering. Each chapter takes up a single topic -- be it the experience of pain, the use of pills in medicine, organ transplantation, or factory farming employing interpretive tools appropriate to the issue. At the same time, the book clarifies for the reader how each chapter connects to and builds upon previous material. After a general Introduction, the book's first section is called *Illness and Treatment: Phenomenological Investigations*. It uses phenomenological methods, largely, though not exclusively, to examine what is it to be ill or in pain, and how modern medicine does and could -- respond. This leads us into Section Two of the book, *Medicine and Bioethics: Hermeneutical Reflections*. In this section, Leder uses tools explicitly and implicitly drawn from figures like Heidegger and Gadamer. Up to now the focus has been on the ill body and its treatment by the medical system. But this is far from the only sort of distressed body. In Section Three, *Discarded and Recovered Bodies* Leder reveals striking parallels between the lifeworlds of animals and prisoners. This stunning collection of essays showcases Leder's powerful and imaginative intellect."
