After all, people's success is measured by the success of those around them.» Paolo Ruggeri This book, written in simple and stimulating language, is the fruit of over ten

years of research. It provides an analytical description of the successful solutions adopted by managers and entrepreneurs who have been successful in creating groups of extremely motivated and productive people. The book is divided into three parts. In the first part we analyze a number of factors and causes that lead the manager's effectiveness to decline; in the second part we provide a very detailed analysis of staff motivation; the third and last part analyzes the character and philosophy of the motivational manager and company. It includes case histories of companies that have successfully resolved personnel management problems, providing many practical examples that every manager and entrepreneur can immediately apply in order to improve their staff's productivity.
