the world and the significance of this unique study. The past is not simply a list of events, rather the records of historic interpretations of those events. Because interpretations differ from historian to historian, the study of history becomes a pool of various narrations told from different perspectives. The World's History celebrates these differentiating values offering readers a rich, comprehensive, and challenging introduction to the study of world history and the methods and key interpretations of its historians. The World's History: Volume 1 covers Parts One through Five (chapters 1-13). The parts move progressively along a timeline from emergence of early humans to the present day encouraging students to analyze

historical events and develop a grasp of the chronology of human development. Readers will gain an appreciation of the national and cultural origins of all their diverse fellow citizens. MyHistoryLab is an integral part of the Spodek program. Key learning applications include, the World History Video Series, MyHistoryLibrary, and the all new Writing Space. Teaching and Learning Experience This program will provide a better teaching and learning experience- for you and your students. It: Personalized Learning with MyHistoryLab: The new MyHistoryLab delivers proven results in helping students succeed, and provides engaging experiences that personalize learning. Emphasized Critical Thinking:

Taureans, ever wondered
what the Sun-signs tell
you about love and life?
This unique anthology of
poems for love and life
relates directly to your
Sun-sign, Taurus. If you
were born between the
21st of April and the
21st of May, you will
relate to many of the
themes identified with
your sign's
characteristics and
personality traits. The
poems in this collection
have been chosen because
they reflect a Taurean
attitude to life. They
appeal to the interests

'ruled' by your sign; the animals, flowers, trees, plants and places celebrated by the poets and associated with the sign of Taurus over three thousand years of traditional astrology. Some have been chosen simply because we believe you will enjoy them, and that they will awaken or re-awaken your love of poetry.

With 83 additional

outline and four-color maps, *World Civilizations: The Global Experience, Fifth Edition, Atlas Edition*, helps students with geography, one of the most difficult aspects of World history courses for many. The maps are accompanied by review questions that call on students to identify important geographical areas and think critically about the connection between geography and historical events. The maps are on perforated pages and are organized by chapter so that they can be assigned easily and collected. The primary goal of *World Civilizations* is to present a truly global history—since the development of agriculture and herding to the present. Using a unique periodization, this book divides the main periods of human

history according to changes in the nature and extent of global contacts. This global world history text emphasizes the major stages in the interactions among different peoples and societies, while also assessing the development of major societies. Presenting social and cultural as well as political and economic aspects, the book examines key civilizations in world history.
