Beyond Smells and Bells Mark Galli 2008-04-01 Liturgy lures us through our senses, grounds us in a great tradition, and plants us in the midst of a diverse community, present and past. Are you attracted to liturgy but don't know why? Are you considering changing to liturgical tradition? Are you already immersed in liturgical worship but want to grasp its deeper significance? *Beyond Smells and Bells* addresses the lure and relevance of liturgy for your life today. Thousands of Christians become interest in liturgy each year for the first time, as they turn to orthodoxy, tradition, and the lasting rituals of the Christian faith. In a culture that values spontaneity, liturgy grounds us in something enduring. In a culture that assumes truth is a product of the mind, liturgy helps us experience truth in mind, body, and spirit. In Mark Galli's able telling, liturgy is an intriguing story, full of mystery, that transforms us. "Mark Galli's book almost persuades me to become high church! This warm and personal overview commits me to work for a renewal of historic liturgical practice in the so-called low churches." -Scot McKnight Ph.D., author of *The Jesus Creed* "In this warm and engaging book, Mark Galli makes a compelling case for the relevance of Christian liturgy in our postmodern, individualistic age. Through lucid examples and moving personal testimony, Gallie explains the countercultural appeal of liturgical worship that spans the denominational spectrum." -Colleen Carroll Campbell, former White House speechwriter and author of *The New Faithful: Why Young Adults Are Embracing Christian Orthodoxy* Mark Galli is senior managing editor of *Christianity Today*. He is a graduate of Fuller Theological Seminary and the author of *Francis of Assisi and His World*, and *Jesus Mean and Wild: The Unexpected Love of an Untamable God*. He is married and has been worshipping in the Anglican tradition for nearly 20 years, most recently as a member of Church of the Resurrection in Glen Ellyn, Illinois.

When the Machine Made Art Grant D. Taylor 2014-04-10 Considering how culturally indispensable digital technology is today, it is ironic that computer-generated art was attacked when it burst onto the scene in the early 1960s. In fact, no other twentieth-century art form has elicited such a negative and hostile response. When the *Machine Made Art* examines the cultural and critical response to computer art, or what we refer to today as digital art. Tracing the heated debates between art and science, the societal anxiety over nascent computer technology, and the myths and philosophies surrounding digital computation, Taylor

is able to identify the destabilizing forces that shape and eventually fragment the computer art movement.

Zombie Church Tyler Edwards 2011-12-13 There is something missing in the church today. Stuck in a rut of routines and rituals, the church is caught up in doing what it is "supposed to do" but is lacking the true essence of what it is supposed to provide: life. Real faith--and a real relationship with Jesus--is not about playing by the rules, attending services, and praying before meals. Real faith is more than religion.

Believing there is a way to breathe life back into the church, Tyler Edwards adopts a contemporary and entertaining metaphor--zombies--to highlight and challenge the problematic attitude of today's believers.

They Like Jesus but Not the Church Dan Kimball 2009-05-26 Many people today, especially among emerging generations, don't resonate with the church and organized Christianity. Some are leaving the church and others were never part of the church in the first place. Sometimes it's because of misperceptions about the church. Yet often they are still spiritually open and fascinated with Jesus. This is a ministry resource book exploring six of the most common objects and misunderstandings emerging generations have about the church and Christianity. The objections come from conversations and interviews the church has had with unchurched twenty and thirty-somethings at coffee houses. Each chapter raises the objection using a conversational approach, provides the biblical answers to that objection, gives examples of how churches are addressing this objection, and concludes with follow-through projection suggestions, discussion questions, and resource listings.

Emergent Strategy adrienne maree brown 2017-03-20 In the tradition of Octavia Butler, here is radical self-help, society-help, and planet-help to shape the futures we want. Change is constant. The world, our bodies, and our minds are in a constant state of flux. They are a stream of ever-mutating, emergent patterns. Rather than steel ourselves against such change, *Emergent Strategy* teaches us to map and assess the swirling structures and to read them as they happen, all the better to shape that which ultimately shapes

us, personally and politically. A resolutely materialist spirituality based equally on science and science fiction: a wild feminist and afro-futurist ride! adrienne maree brown, co-editor of *Octavia's Brood: Science Fiction from Social Justice Movements*, is a social justice facilitator, healer, and doula living in Detroit. *Creative Ideas for Children's Worship - Year C* Sarah Lenton 2013-09-20 This resource provides 64 complete and ready-to-use sessions for children's worship. The Gospel after Christendom Ryan K. Bolger 2012-11-01 Emerging and missional church movements are an increasingly global phenomenon; they exist as holistic communities that defy dualistic Western forms of church. In this volume, Ryan Bolger assembles some of the most innovative church leaders from around the world to share their candid insider stories about how God is transforming their communities in an entirely new era for the church. Bolger's new book continues the themes that he and Eddie Gibbs established formally in their critically acclaimed *Emerging Churches* and situates new church movements within this rubric. It explores what's happening now in innovative church movements in continental Europe, Asia, and Latin American and in African American hip-hop cultures. Featuring an international cast of contributors, the book explores the changes occurring both in emerging cultures and in emerging and missional churches across the globe today.

The Art of Curating Worship Mark Pierson *The Art of Worship* is about transitioning our understanding and practice of worship to one of design or curation. According to Mark Pierson, a pioneer in worship, worship needs to be seen as an art form rather than a linear task of filling in the gaps on an order of service. Many practical examples are used to illustrate ways in which worship in regular services as well as in specially designed spaces inside and outside the church building can be designed and delivered for spiritual formation and mission.

'Tikkun Olam' –To Mend the World Jason Goroncy 2013-12-04 "Tikkun Olam"--To Mend the World is premised on the conviction that artists and theologians have things to learn from one another, things about the complex interrelationality of life and about a coherence of things given and sustained by God. The ten essays compiled in this volume seek to attend to the lives, burdens, and hopes that characterize human life in a world broken but unforgotten, in travail but moving towards the freedom promised by a faithful Creator. They reflect on whether the world--wounded as it is by war, by hatred, by exploitation, by neglect, by reason, and by human imagination itself--can be healed. Can there be repair? And can art and theology tell the truth of the world's woundedness and still speak of its hope?

Curating Church Jacob D. Myers 2018-10-02 If we are willing to shift our approach to church, we will better connect with increasingly heterogeneous cultures. This shifting requires curation. Church leaders must learn to be curators! Churches in modernity were set up to facilitate a particular kind of experience with God. Church was its own (protected) culture. In the wake of postmodernity, facilitated by new forms of (digital) communication, we are entering a new epoch in the history of the church. Curators manage the tasks of connection, preservation, and transformation, in their care for cultural artifacts and communities.

When someone serves as a curator, they make connections between different elements in the culture, preserving the best of cultural traditions, and promoting fresh ways of thinking and being in the world. What might this work of curation mean for us? In *Curating Church*, readers learn how curation can reorient and sharpen the ways and work of the church. Curation can inform how we connect with cultures beyond the church, preserve what is best in the rich history of Christian thought and expression, and nurture spaces where contemporary persons may be transformed by the gospel. This book helps readers to understand with new richness the church and the world, and it equips them to become active in making those connections—as curators—with and for others.

Brain-Based Worship Paula Champion-Jones 2014-10-07 Historically, it has been believed that Christian formation occurs primarily in the context of worship. Because both traditional and contemporary worship services are routinely structured around the skills of persuasive rhetoric and logic, most worship services effectively ignore the impact of experiential, embodied knowledge. Recent research in neuroscience has proven that humans are sensory-motor-emotional-thinking beings who learn best when body, brain, and emotions are simultaneously engaged. A fresh paradigm for teaching, brain-based learning, is proving to result in learning that is more memorable, more likely to result in long-term change in the behavior of the learner, and more likely to spur the learner to investigate the subject further. The Church needs to employ brain-based teaching methods in order to more effectively transmit the Gospel.

Let's Kill Sunday School Rich Melheim 2014-10-10 Sunday School was never intended for Christian children from Christian homes. It was set up for illiterate, shoplifting street urchins in Dickensian England who had no parents to teach them the faith. Today the system that was set up to help spiritual orphans is creating them. We think it's time to change that but designing the wisdom of the elder and the wonder of the child in the same sacred space every week at church, and a simple five step (www.faith5.org) nightly home ritual that will strengthen the family.

Museums and the Shaping of Knowledge Eileen Hooper Greenhill 1992-01-23 Museums have been active in shaping knowledge over the last six hundred years. Yet what is their function within today's society? At the present time, when funding is becoming increasingly scarce, difficult questions are being asked about the justification of museums. *Museums and the Shaping of Knowledge* presents a critical survey of major changes in current assumptions about the nature of museums. Through the examination of case studies, Eileen Hooper-Greenhill reveals a variety of different roles for museums in the production and shaping of knowledge. Today, museums are once again organising their spaces and collections to present

themselves as environments for experimental and self-directed learning.

The Worship Pastor Zac M. Hicks 2016-10-11 Modern worship leaders are restless. They have inherited a model of leadership that equates leading worship with being a rock star. But leading worship is more than a performance, it's about shaping souls and making disciples. Every worship leader is really a pastor. The Worship Pastor is a practical and biblical introduction to this essential pastoral role. Filled with engaging, illustrative stories it is organized to address questions of theory and practice, striving to balance conversational accessibility with informed instruction. Part One presents a series of evocative "vignettes"--intriguing and descriptive titles and metaphors of who a Worship Pastor is and what he or she does. It shows the Worship Pastor as Church-Lover, Disciple Maker, Corporate Mystic, and Doxological Philosopher. Part Two covers specific roles related to ministry within the worship service itself--the Worship Pastor as Theological Dietician, Caregiver, Mortician, Emotional Shepherd, War General, Prophetic Guardian, Missional Historian, and Liturgical Architect. Part Three looks at ministry beyond the worship service--the Worship Pastor as Visionary Teacher, Evangelist, Artist Chaplain, and Team Leader. While some worship leaders are eager to embrace their pastoral role, many are lost and confused or lack the resources of time or money to figure out what this role looks like. Pastor Zac Hicks gives us a clear guide to leading worship, one that takes the pastoral call seriously.

Worship for the Whole People of God Ruth C. Duck 2013-09-18 This new book on worship by renowned hymn writer and professor Ruth C. Duck provides theological foundations for worship and explores the variety of ways Christians have adapted worship to various cultures to help them live faithfully and to communicate the Gospel to others. The author celebrates the many languages and cultural settings in which the Gospel has been, and is, preached, sung, and prayed. The goal of this volume is to support good pastoral and congregational reflection on what worship is and does. Consequently, Duck discusses many different forms of worship from several cultures (African-American, Asian, Euro-American) and offers advice on how to read a congregation and define its culture in order to plan culturally appropriate worship. Although the book does not offer prescriptive formulas or advise a single pattern of worship, it includes many practical suggestions for preparing and leading worship, including diverse ministries of music, movement, and visual arts that are becoming more popular today. From worship's theological underpinnings the book turns to worship leadership, forms of prayer, preaching, the sacraments, ordination, and various other liturgies. Because of its emphasis on vital and Spirit-led worship, this comprehensive book on Christian worship will be used in years to come not only as a core textbook for seminarians and ministry students from a variety of cultures and traditions, but also as a resource for local church pastors and laity who are dedicated to the enlivening of Christian worship.

Introducing Evangelical Ecotheology Daniel L. Brunner 2014-10-14 Today's church finds itself in a new world, one in which climate change and ecological degradation are front-page news. In the eyes of many, the evangelical community has been slow to take up a call to creation care. How do Christians address this issue in a faithful way? This evangelically centered but ecumenically informed introduction to ecological theology (ecotheology) explores the global dimensions of creation care, calling Christians to meet contemporary ecological challenges with courage and hope. The book provides a biblical, theological, ecological, and historical rationale for earthcare as well as specific practices to engage both individuals and churches. Drawing from a variety of Christian traditions, the book promotes a spirit of hospitality, civility, honesty, and partnership. It includes a foreword by Bill McKibben and an afterword by Matthew Sleeth.

Art Power Boris Groys 2008-02-08 A new book by Boris Groys acknowledges the problem and potential of art's complex relationship to power. Art has its own power in the world, and is as much a force in the power play of global politics today as it once was in the arena of cold war politics. Art, argues the distinguished theoretician Boris Groys, is hardly a powerless commodity subject to the art market's fiat of inclusion and exclusion. In Art Power, Groys examines modern and contemporary art according to its ideological function. Art, Groys writes, is produced and brought before the public in two ways—as a commodity and as a tool of political propaganda. In the contemporary art scene, very little attention is paid to the latter function. Arguing for the inclusion of politically motivated art in contemporary art discourse, Groys considers art produced under totalitarianism, Socialism, and post-Communism. He also considers today's mainstream Western art—which he finds behaving more and more according the norms of ideological propaganda: produced and exhibited for the masses at international exhibitions, biennials, and festivals. Contemporary art, Groys argues, demonstrates its power by appropriating the iconoclastic gestures directed against itself—by positioning itself simultaneously as an image and as a critique of the image. In Art Power, Groys examines this fundamental appropriation that produces the paradoxical object of the modern artwork.

Curating Contemporary Music Festivals Brandon Farnsworth 2020-07-31 Contemporary music, like other arts, is dealing with the rise of »curators« laying claim to everything from festivals to playlists - but what are they and what do they do anyway? Drawing from backgrounds ranging from curatorial studies to festival studies and musicology, Brandon Farnsworth lays out a theory for understanding curatorial practices in contemporary music, and how they could be a solution to the field's diminishing social relevance. The volume focuses on two case studies, the Munich Biennale for New Music Theatre, and the Maerzmusik Festival at the Berliner Festspiele, putting them in a transdisciplinary history of curatorial practice, and showing what music curatorial practice can be.
